MAGDALENE C. UNAJAN

Department Head
Department of Computer Science and Technology
Visayas State University
Visca, Baybay City, Leyte

Dear Maam Unajan:

Greetings!

In the interest of an employment opportunity at the prestigious Visayas State University, as the vacancy is possible, I would like to submit myself for a permanent teaching position commensurate to my qualifications.

I am Rhoderick D. Malangsa, born in Inopacan Leyte, Philippines. I obtained my Doctor in Information Technology (DIT) degree from the CIT –University last March 2017. I received my Bachelor of Science degree from STI College and my master's degree from Southern Leyte State University, in 2004 and 2012 respectively.

I have experience teaching undergraduate students in a variety setting since 2006, and started teaching graduate students since 2012. Moreover, I was designated as College Dean of the College of Computer Studies and Information Technology of SLSU from 2016 to 2019. Presently, I am designated as the Director for External Linkages and Extension Services of SLSU and the same time the focal person for Institutional Sustainability Assessment (ISA), focal person for Conceive Design Implement Operation (CDIO) Framework, and member of QMS- Risk Management/Assessment Team. I am also actively engaged in other professional organizations, as Vice President for Philippine Society of Information Technology Educators (PSITE) 8 and President for Council of Deans in Information Technology (CDITE) Region 8 in 2017-2018.

The pandemic continues to dramatically affect our lives, including our relationships with our families, our homes and our workplaces. During this pandemic, it is really a challenge for me to travel from home to work due to the varying quarantine protocols set by the government.

I believe that the VSU would be a great avenue to pursue my quest for life-long learning and share in return the knowledge I acquired from my varied experiences in instructions, research, extension, innovation, and quality assurance.

As a holistic and globally competitive individual, I believe that one of the many ways I could do to bring glory to VSU is bringing its name to more research engagements and external funding. For your contemplation, I have presented and published several research papers in various international conferences and journals the are indexed in Scopus and other major databases of international repute.

Should there be more queries about myself, I would love to get an interview. Meanwhile, attached is my PDS for your perusal. With my capabilities, expertise, and expertise, I would appropriate you considering me for the teaching position.

Thank you very much.

Very truly yours,

RHODERICK D. MALANGSA, DIT
