MAGDALENE C. UNAJan
Department Head
Department of Computer Science and Technology
Visayas State University
Visca, Baybay City, Leyte

Dear Ma'am Unajan:

Greetings!

As an aspiring educator, it is indeed a professional and personal advantage to reinvent myself and my teaching skills in an academe of excellence offering market-based and industry-driven quality education. In line with this, I would like to express my sincerest interest to seek a teaching position as Instructor I with the Department of Computer Science and Technology at the Visayas State University- Main Campus.

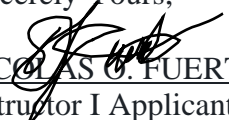

In addition to my qualifications, my good academic background as a student, and relevant experiences—I was also able to acquire new skills and competencies that would help me deal with the 21st century learners. This have taken me into a genuine realization of the teaching profession and brought a desire to pursue my teaching career.

During my placement as a student teacher, I learned and applied a broad range of teaching strategies and approaches. At an early stage of practicum, I was entrusted, with minimum supervision, by my critic teacher to manage classroom teaching-learning situations, and this proved my sense of responsibility and adaptability. I also acquired indispensable skills in managing classroom instruction efficiently, understanding diverse learning styles of students, evaluating student's performances, adopting culture of organizations and subordination in an academic institution, and others.

Furthermore, I truly believe that we are all lifelong learners and would love the opportunity to share this philosophy with the students of Visayas State University. I look forward to discussing with you soon how my experiences and potentials can best meet the goals of the school.

Thank you very much!

Sincerely Yours;

NICOLAS C. FUERTES
Instructor I Applicant
