EUSEBIO R. LINA JR.

Department Head
Department of Mathematics and Physics
Visayas State University
Visca, Baybay City, Leyte

Dear Sir,

I am one of the followers of your FB Page "*Department of Mathematics and Physics*" and read a post that is 14 hours ago it was posted that you are looking for a Mathematics and Physics Instructor. I am very much interested and feeling hopeful to be part of this institution for the second time around. Way back 2016, I was hired as a Part-Time Instructor in your department teaching Math11 – College Algebra, Math12- Plane Trigonometry and Physics11 Laboratory class. Back then I have regrets on not renewing my contract and grabbed the opportunity offered to me by DepEd that time, that is why I am here again willing to apply in this vacant position you offered.

Regarding to the current situation of education that we have today due to pandemic, it opens more doors for me to explore the world of online teaching and distance learning delivery. I was exposed in different platforms in delivering the lesson such as Google Meet, Google Classroom, Zoom, Microsoft teams, Edmodo, etc.. and OBS+PowerPoint presentation in making a video lesson with basics on video editing using PowerDirector and Kinemaster.

As for internet connection is concerned, I have up to 50mbps internet connection at home provided by PLDT Fiber wired connection that is good for synchronous classes or live classes. As a DepEd employee, I have a flexible time as of now since we are adopting the Distance Learning Delivery Modality – Modular Printed and for the coming school year, we will be using the same module we reproduced last school year that is why I have more time to do online classes and making video lessons.

I am looking forward for your positive response regarding my application and you will consider me as part again of our beloved institution. Feel free to contact me in your most convenient time.

Thank you and God bless!

Respectfully yours,

JUVEN B. CORRALES
