Subject: Application for Part-Time Instructor Position

Dear Dr. Patindol,

I am writing to express my interest in a part-time instructor position in your department. I recently graduated with a Bachelor of Science in Environmental Science from Visayas State University, and I am eager to begin my academic career by sharing my knowledge and supporting student learning in the environmental sciences.

Throughout my undergraduate years, I have gained hands-on experience in fieldwork, data collection, and community-based assessments. My coursework and fieldwork have equipped me with strong skills in environmental monitoring, climate and disaster risk assessment, and scientific writing. I am particularly interested in teaching subjects aligned with my academic training, such as basic environmental science, climate change, or disaster risk reduction. I am committed to maintaining a professional and supportive learning environment and would welcome the opportunity to grow as an educator under your guidance.

I would appreciate the opportunity to further discuss how I can contribute to your goals. I am available for an interview at your convenience and can be reached at +639564929629 or ianky10103@gmail.com.

Thank you very much for considering my application. I look forward to the opportunity to contribute to your organization's efforts in advancing environmental research and advocacy.

Sincerely,

IAN KYL B. LAMASON
