## **MARLON M. TAMBIS**

Director  
Philippine Root Crops Research & Training Center  
Visayas State University  
Visca, Baybay City, Leyte

Dear **Sir Tambis**,

I am excited to apply for the Science Aide position at Philrootcrops. With a strong passion for science and agriculture, I am confident that I would make a valuable addition to your team.

As a highly organized and detail-oriented individual, I possess excellent laboratory skills, including preparing materials, setting up equipment, and maintaining a safe and organized laboratory environment. My experience working with plants and agricultural systems has taught me the importance of attention to detail, critical thinking, and problem-solving.

I am particularly drawn to Philrootcrops because of its commitment to promoting sustainable agriculture and improving the livelihoods of Filipino farmers. I am impressed by the institution's innovative approach to crop research and development, and I am excited about the prospect of contributing to the success of your team.

In my current role at the Agricultural Training Institute, I have gained valuable experience assisting training specialists and agriculturists with conducting trainings, data collection, and data analysis. I am confident that my skills and experience would be an asset to the Philrootcrops team.

Thank you for considering my application. I would welcome the opportunity to discuss my qualifications further and explain in greater detail why I am the ideal candidate for this role.

Please feel free to contact me at 09750739041 or dulceamorca.13@gmail.com

Sincerely,

Dulce Amor C. Acampado
