**JEROME O. ARRIBADO**

Director

Eco-FARMI , Visayas State University

ViSCA, Baybay City, Leyte

Subject: Application for Instructor III

Dear Director Arribado,

I have learned with great excitement the vacancy for Instructor III, hence I am submitting my resume for review and consideration for the post.

Over 2 decades, I held several positions within East-West Seed Company and for each role, I enjoyed and found myself effective in research, technical capacity building, and extension work.

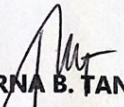

Currently, I am the Food Security and Livelihood Project Manager of LGU- Saint Bernard, Southern Leyte.

One of my greatest achievement at East-West Seed was my deep involvement in the Certification of Advisory Training Program in which I conceptualized the organization of the different subject matters as well as content writing and presentation. In terms of research, my first job at the company was into research and breeding of tomato and onion. The field of research is always integrated into the different assignments that I held both in private and public sector and this is what ignited me to apply for the position.

I look forward to discussing the job opportunity with you and how my experiences can add value to the Ecological Farm and Resources Management Institute.

Thank you for reviewing this letter and the attached documents.

Sincerely,

  
**TERRE VIRNA B. TANQUEZON**
