ROMEL B. ARMECIN

Director
National Abaca Research Center
Visca, Baybay City, Leyte, 6521

Dear Dr. Armecin,

Good day!

I am writing to express my interest in the Lab Technician position at National Abaca Research Center (NARC). I graduated from Visayas State University with a Bachelor of Science in Agriculture, where I gained strong foundational knowledge in plant sciences, laboratory procedures, and research work.

During my time at the university, I served as a student assistant in the Department of Agronomy for more than a year, which provided me with extensive hands-on laboratory experience. In this role, I assisted in preparing samples, conducting routine laboratory analyses, maintaining equipment, and organizing experiment data. This experience strengthened my skills in laboratory management, attention to detail, and adherence to safety and quality standards.

My academic background and practical laboratory exposure have equipped me with the ability to work efficiently, follow established protocols, and contribute effectively to research and technical tasks. I am highly motivated, organized, and eager to apply my skills in a professional laboratory setting.

I would welcome the opportunity to join your team and support the important work being done at NARC. Thank you for considering my application. I look forward to the possibility of discussing how my background aligns with your needs. You may contact me at 09630165879 or angelitod732@gmail.com at your convenience.

Sincerely,

ANGELITO I. DAING
