Department Of Physics
Visayas State University
Baybay City, Leyte

Dear Sir/Madam,

Greetings!

I am writing to express my interest in the part-time instructor position in the Department of Physics at Visayas State University (VSU). As a recent graduate of Visayas State University with a Bachelor of Science in Applied Physics, I am eager to apply the knowledge, discipline, and passion in a professional setting.

Although I'm just beginning my career journey, my academic training has equipped me with a solid foundation in both theoretical and experimental physics. Through extensive coursework, laboratory work, and research exposure, I have built a comprehensive understanding of fundamental physical principles and scientific methodology. Additionally, my experience as a peer tutor has strengthened my ability to effectively communicate complex concepts in a clear, relatable, and engaging manner—an essential skill for any educator.

What particularly attracts me to this opportunity is the Department of Physics' reputation for excellence in instruction and its dedication to fostering analytical thinking and scientific curiosity among students. It would be a privilege to contribute to such an environment and support the department's mission of academic excellence.

I am confident that my enthusiasm for physics, adaptability in a learning-focused setting, and commitment to delivering quality education would make me a valuable addition to your faculty.

Thank you for considering my application. I would welcome the opportunity to further discuss how I can contribute to your department. I look forward to the possibility of joining your academic team at Visayas State University.

Sincerely,
Willian Andreana B. Miguello
