Professional profile

A Graduate with a degree in Bachelor of Science in Computer Science. Possess a sound background in Data communications and extensive training in structured programming techniques.

I am a highly motivated, productive, and customer-focused team player with solid communication, interpersonal, organizational, time management, analytical, and problem-solving skills. In terms of problem-solving, I tend to think out of the box and look for simpler solutions instead of complex ones. Simple and functional is always the best option for me. I am reliable and dedicated, able to grasp and apply new procedures quickly; organize and prioritize tasks to meet deadlines, and adapt readily to new challenges.

Objective

Leverage my technical expertise and passion for coding as a skilled computer programmer. Seeking a challenging position where I can contribute to the development of innovative software solutions and collaborate with a dynamic team of professionals. Committed to continuously enhancing my programming skills and staying updated with emerging technologies to deliver high-quality, efficient, and reliable software solutions.
