### MEDICAL CERTIFICATE

To whom it may concern,

This is to certify that **Gilda P. Nayre**, 54 years old Female from Baybay City, Leyte was seen and examined at my clinic on July 27, 2024. Patient c/o pain on her R shoulder with a P/S of 4/10 (0=no pain; 10=worst pain).

Examinations revealed with the following diagnosis; Calcific Tendinitis (R) Shoulder is a condition characterized by the formation of calcium deposits within the tendons and muscles of the shoulder joint, most commonly affecting the rotator cuff tendons. The most common symptom of calcific tendinitis is pain with shoulder movement like lifting the arm or reaching overhead, pain at night especially when lying on the affected side, tenderness in the shoulder joint, limited range of motion and muscle weakness which can range from mild to severe.

The patient was prescribed for 18 treatments to achieve utmost recovery.

As per gold standard of clinical practice guidelines, she is required to attend her treatments as part of her treatment program.

This certification was issued on October 24, 2024 as requested by the patient in whatever purpose it may serve her best.
