c.	Technical Criteria [Does the market support the proposed technical requirements?]	Yes	
d.	Delivery Lead Time [Are the timelines for delivery feasible?]	Yes	95 days delivery time
e.	Storage and Warehousing Requirements [Can the storage/ warehousing needs be met considering specific conditions like temperature, humidity, and handling?]	Not Applicable	
f.	Identified Risk/s [Were there any market risks identified? (e.g., limited suppliers, price volatility)]	Yes	There is a market risk in book procurement due to price fluctuations caused by changes in book prices, shipping costs, and currency exchange rates, as most academic books are foreign-authored and published abroad. Another factor contributing to the risk is the limited availability of copies, which makes it difficult to secure adequate supply for the library's needs.
