MEMORANDUM NO. 87  
Series of 1993

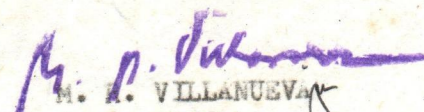

T O: Dr. Rodolfo G. Escalada  
Dr. Eliseo R. Ponce  
Dr. Paciencia P. Milan  
Dr. Jose L. Bacusmo

R E: Marine Laboratory

After a thorough assessment made by the undersigned together with the VP for Academic Affairs and the Director of PRCRTC of the requirements of the proposed Marine Laboratory, all concerned are hereby advised to construct the facilities on a piece of ground along the northern side of Calbiga-a river towards the sea. Until further authorized, the site should not go beyond one-half of the block identified. The other half of the block shall continue to remain with PRCRTC.

The alternative site along the Lago-lago river has very poor source of fresh water and site development will use up much of the funds available. Besides, it is better reserved for other marine research that needs swampy environment.

For guidance of all concerned.

  
M. A. VILLANUEVA  
President
