Series of 1998

T O: **Engr. Climaco Espina**

R E: **Business Operations On-Campus Without Permit and Selling
of Fire-Hazard Items**

It has been observed that there are some ViSCA residents who are engaged in various business on campus without permit. It has been noted also that some are currently selling fire-hazard items (like gasul, etc.) without permission from the College. This poses great danger to the lives of ViSCANs as well as the properties of the College.

In view of this, you are hereby requested to negotiate with the concerned parties/staff to store their fire-hazard items away from any college property.

For strict compliance.
