R E: Participation in Ecosystems Research

In connection with ViSCA's plan to actively participate in ecosystems research, you are hereby appointed members, with Dr. E. R. Ponce as Chairman, representing various disciplines to compose the team that will draft a program on "Small Island Rehabilitation and Development" with the following duties and responsibilities:

1. To prepare a holistic research and development proposal including budgetary requirement that will promote, conserve, rehabilitate and/or improve the marine life (e.g. flora and fauna); develop community-based livelihood programs, and improve health and nutritional status of the inhabitants in small islands and in small communities along coastal areas.
2. To secure proper clearance from external agencies whose involvement in the project proposal may be needed.

Please submit a draft proposal by May 31, 1989.

M. R. VILLANUEVA
President
