F. 1991 BUDGET

As of this writing, the 1991 Budget has not been passed. Although we have official advice to operate at the 1990 level, further cuts have been proposed by the House of Representatives. ViSCA is taking the necessary precaution that includes break periods for casual employees and non-accumulation of leave privileges. Nevertheless, if in my judgment, some personnel have to be employed without break to allow all units to operate at the minimum level, this can be granted provided further that the unit heads concerned can assure me that they will operate within the budget appropriated for those units. As much as possible, unit heads shall be given leeway to manage their budgets but they shall also take full responsibility for all their actions.
