The university has produced a commemorative centennial book and booklet to be launched during the centennial convocation in April 26, 2024 at the University Gym.

In line with this, we would also like to launch other books that were recently produced by the university to properly introduce to our guests and stakeholders. The books will be collected by the Grants Development Office at the 2nd Floor of the Administration Building on or before Wednesday, April 24, 2024.

We are hoping for your active participation in this endeavour.

For your guidance.
