R E: Preparation of List of Equipment Under AGRITECH Project

With Dr. Remigio P. Mollaneda as overall coordinator, please prepare a list of basic laboratory and field equipment that you feel are needed in carrying out the diploma and masteral programs in agricultural technology under the AGRITECH project as follows:

<u>Area</u>	<u>Responsible Person</u>
Farm Mechanization	Dr. Gregorio J. Galinato
Post Harvest Handling,	Dr. Gregorio J. Galinato, Dr. Emma S.
Storage and Processing	Data and Dr. Rebecca M. Santiago
Meat Processing	Dr. Oscar B. Posas, Dr. Lucylen B. Ponce
Grain Processing and Storage	Dr. Rodolfo G. Escalada
Horticultural Perishable	
Laboratory	Dr. Rebecca M. Santiago
Office and Audio Visual	
Equipment	Dr. Remigio P. Mollaneda, Dr. Federico R. Flores

In view of the urgency of the need, please submit the final list by April 4, 1989 for transmittal to EDPITAF. Although we have not been provided with any specific budget for each equipment category, I suggest that we limit the list to the basic needs with a little allowance to conduct research in the discipline concerned. This budget provision is just meant to supply missing equipment in existing laboratories.

Thank you
