MEMORANDUM CIRCULAR NO. 15

Series of 2017

T O: All VSU Constituents

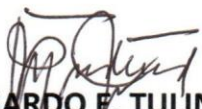

R E: Results of Water Analysis

This is to inform everyone that our water sources were subjected to water analysis early this year. Unfortunately, results of the bacteriological examination showed that only two (2) of our water sources passed the standards. Below are the results of the water analysis:

Sample Source and Address	Remarks
Source I – Magdagooc	Passed
Source II – PCC Reservoir (Lago-Lago)	Passed
Source III – Forestry (Tank) – River Dam	Failed
Distr. IA – Food Tech	Failed
Distr. IB – Coconut (NCRC)	Failed
Distr. IC – Hospital (Nurses’ Station, OPD)	Failed
Distr. ID – Pavilion	Failed
Distr. IIA – PCC Barn	Failed
Distr. IIB – Animal Science	Failed

While we are still in the process of improving the water system, affected areas are advised to boil their drinking water and refrain from drinking directly from the faucets.

For information and guidance.

EDGARDO E. TULIN
President *enc 3/10/17*
