Office of the President

2 June 2016

MEMORANDUM CIRCULAR NO. 35
Series of 2016

T O: All VSU Campus Residents

R E: Campus Cleanliness

In the past three weeks the VSU Infirmary has noted successive incidence of Dengue-like cases in some areas of our campus particularly in the Apartment area. To contain the possible spread of this infection, all VSU campus residents are directed to clean their surroundings and get rid of all potential breeding places of the mosquito vector e.g. old tires, cans, flower pots that collect water. You are also encouraged to cut/prune banana plants and other host species to reduce the mosquito vector population.

For compliance.

EDGARDO E. TULIN

President
