RE: Coordination for Achieving GAA Key Performance Indicator Targets for Research and Extension

FROM: 
DR. PROSE IVY G. YEPES
University President

DATE: October 24, 2024

During the Management Committee (ManCom) Meeting held on October 23, 2024, it was reported that our progress as of the 3rd quarter for research and extension remains far below the targets in accordance to the Key Performance Indicators (KPIs) set forth in the General Appropriations Act (GAA). Specifically, the following KPIs are lagging behind:

- **Research outputs published in internationally refereed or CHED-recognized journals:** 13 out of the targeted 45 publications.
- **Number of trainees weighted by the length of training:** 7,646 out of the targeted 26,000

To address this concern,, you are requested for an immediate coordination with the Office of the Vice President for Research, Extension, and Innovation (VPREI) as well as the different colleges and academic units. It is imperative to develop and implement robust strategies that will accelerate our progress in line with the KPIs.

For your information and guidance.
