R E: Task Force on Squatters in ViSCA

With Dr. Samuel S. Go as Chairman, you are hereby designated members of the Task Force to look at the squatter problem of ViSCA and recommend strategies to halt the influx of squatters into the ViSCA property and how existing squatters can be made to vacate the area.

The Task Force is advised to consider seriously the attached report of a concerned citizen of this community, Prof. Francisco G. Bascug. Likewise, previous steps undertaken by the administration, specifically compensating squatters in exchange for vacating the area, should be looked at in the formulation of strategies. Inasmuch as the earlier strategies did not work effectively, they should be examined to determine if they should be revised or new strategies must be included.

Please submit your recommendations in thirty (30) days.

  
M. R. VILLANUEVA  
President
