Memo Circular No. 03
Series of 2021

T O: All College Deans, Department Heads, Institute Directors and Faculty Members

R E: Class Observation

Please be informed that during the ISO Surveillance Audit on Feb. 4-5, 2021, class observation will be done on the first day, Feb. 4, which is a Thursday. One auditor will observe synchronous online classes, as well as the learning guides of offline modular classes. For online classes, the auditor will **pick at random the classes to be observed** from all classes scheduled from 10:00 a.m. – 3:00 p.m. on that day. Please check the attached list of class schedules and inform this office immediately of any changes made on the schedule.

In relation to this, please ensure the following:

1. All teachers who have scheduled online classes on Feb. 4 should conduct synchronous classes.
2. They should prepare very well for their classes, well-groomed and presentable, and conducting the class in a well-lit, clutter-free room with a **very good internet connection**. According to Ms. Jogina Mendiola of TUV Rheinland, class observation will be done thru "mirroring". Mr. Norma O. Villas will call for an orientation anytime next week on how this scheme will be done.
3. All the above classes should have an approved course syllabus and TOS. The topics discussed in class have to jibe with those stipulated in the syllabus. The course syllabi of all 10:00 a.m -3:00 p.m. classes shall be stored in one folder per department for easy retrieval when asked by the auditor. Make sure the topics in the TOS match with the topics in the syllabus.
4. For observance of offline classes, the auditor will pick a class **at random** (not necessarily from the 10:00 a.m. – 3:00 p.m. classes only). The learning guides, course syllabi and TOS of these classes will also be stored in another folder per department for easy retrieval when asked by the auditor.

For information and guidance.

Thank you.

BEATRIZ S. BELONIAS
Vice President for Academic Affairs

cc: Mr. Norman C. Villas
