VISAYAS STATE COLLEGE OF AGRICULTURE
Baybay, Leyte
OFFICE OF THE PRESIDENT

February 4, 1997

MEMORANDUM NO. 14
Series of 1997

T O: All Concerned

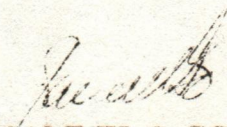

SUBJECT: Obstructions on Sidewalks

It has been observed that sidewalks which are primarily constructed for pedestrians are obstructed due to the construction of fences and dumping of aggregates, firewood, garbage, etc.

The college administration through the Cleaning, Landscaping and Drainage Maintenance Unit is trying its best to clear these sidewalks and restore the appropriate use of the facility as intended, for the general welfare of the ViSCA community and visitors coming to ViSCA every now and then.

In view of this, the Heads of the ViSCA Security and Physical Plant Offices are hereby directed to advise staff members concerned to remove immediately illegal obstructions.

For strict compliance.

SAMUEL S. GO
President
