MEMORANDUM NO. 93
Series of 1989

T O: The Executive Committee Members, Office Heads and
Student Leaders

R E: Agreements/BOT Decisions

This is to inform all concerned that as a result of the tripartite dialogue held on July 7, 1989 among the administration representatives, protesting group and student leaders, the Board of Trustees of ViSCA came up with its decisions on all issues raised during the dialogue. The groups concerned have agreed to respect the Board decisions regardless of their original stand on the issues. A true copy of the BOT decisions is attached.

The decisions made are clear and very explicit. It is expected that there will be a common understanding among the various sectors of the College so that unity and cooperation among us will again prevail. It will help if further speculations on those issues will be avoided and their implementation within the bounds of law is respected.
