R E: RESUMPTION OF CLASSES

As I had strongly pointed out in our meetings and in the interest of protecting the welfare of our students, I am ordering you to suspend immediately your boycott of classes, if this is not done yet, and to assume your full functions and responsibilities as department heads. You should see to it also that your staff shall conduct their classes as scheduled in their originally designated places and following the course designs.

Needless to say, you are expected to promote the welfare of your students and uphold the interest of your respective departments as heads. It is also unfair to the students to be sacrificed for your own cause that is not a direct concern to them.

Thank you for your cooperation.
