

18 October 2022

MEMORANDUM NO. 724

Series of 2022

T O: All Department units and Research Centers

R E: Student's Access to University Instruction and Research Facilities and Equipment

The Visayas State University recognizes the value of exposing students to well-equipped laboratory facilities as part of its aim to generate highly competitive human resources.

As a result, all units are directed to provide and offer student access to laboratory facilities and equipment.

This will provide them with hands-on experience doing laboratory activities, a great deal of practice developing the abilities required for study and research, and primarily, give them greater learning opportunities.

For your guidance and compliance.

EDGARDO E. TULIN
President *o/c 10/21/22*
