

April 8, 1986

MEMORANDUM NO. 52
Series of 1986

T O: Dr. Nelson M. Esguerra
Mr. Alberto M. Abiera
Mr. Wilfredo C. Valenzona

R E: Committee on Investigation

The President's Advisory Council, in its meeting on March 20, 1986, condemned the act of circulating a Board resolution before it could be finalized and officially circulated. The action was described as contrary to accepted standard procedures and can only be interpreted to bring with it the element of dishonesty and deceit and suspicion to create misunderstanding and disunity among us.

In this connection, therefore, you are hereby appointed members of a committee to conduct an investigation of the case, identify the culprit(s), and recommend proper action. This action is necessary not because of the chaos that it brought but more because of its serious implications.

Please submit your findings and recommendations within 45 calendar days to the Office of the President.
