## Office of the President

19 May 2011

### MEMORANDUM NO. 137

Series of 2011

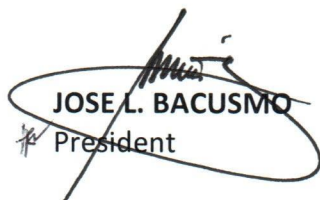

**T O: All College Deans, Department Heads and Key University Officials**

**R E: 2011-2015 Action Planning Workshop**

The University Strategic Plan for 2011-2015 has been submitted and approved by the Board of Regents during its last meeting on April 2011. We are now in the final phase in the series of activities we have undertaken for several months. Once more, we will convene for an action planning workshop to thresh out the details of the strategies and expected outputs for implementation in the succeeding years.

In this connection, let us meet once again for a two-day workshop on **June 8-9, 2011** at the **Center for Continuing Education (CCE)**. You are advised to bring out your comments and additional suggestions to come up with a comprehensive action planning output. Please make yourselves available during these dates.

Your presence and active participation in this activity is very much appreciated.

  
**JOSE L. BACUSMO**  
President
