**R E: Investigation on the Reported Squatting in LSU Properties**

With Dr. Juan S. Labra as Chairperson, please constitute yourselves into an Ad Hoc Committee to investigate on the alleged planting with banana, pineapple and coconut in LSU land by a member of "RUBEN" staying in Brgy. Patag.

Please identify the name, address and personal circumstances of the culprit, the total area occupied and the specific LSU lands involved. Your report will serve as our basis in instituting legal action to clear LSU properties of squatters.

Please be guided accordingly.

Dear Dr. Milan:

Last Tuesday, April 22, 2003, we had a survey in coconut areas at Busay (water district source of water) in the mountain of barangay Patag. We happened to pass by an area bought by ViSCA before previously planted with abaca. This time the area is planted with banana, pineapple and few coconut seedlings by somebody who is a member of "RUBEN" staying in Patag. This lot was bought by ViSCA before from Irak Piamonte. Mr. Bonifacio Villocino who was with us during the survey (he is not connected with LSU at present) and is knowledgeable in ViSCA's property as he was with late Narcing Posas before in land acquisition, revealed to us about the said area.

Since the mentioned area is not considered coconut land, I am informing you of this situation so that this could be given to appropriate body to settle the matter.

Thank you.
