Dear President Bacusmo:

One of the statistical coordination mechanisms being implemented by our office is the **Statistical Survey Review and Clearance System (SSRCS)** which involves the review and clearance of statistical surveys proposed to be conducted by government entities in the region. This mechanism aims to: (1) ensure reliability, comparability and accuracy of statistics generated by the government; (2) eliminate unnecessary duplication of statistical data collection; and (3) effect economy in government operations.

Right now, we are reconstituting the membership of the **Technical Subcommittee on Survey Design (TSSD)**, a subcommittee under the Regional Statistical Coordination Committee. The TSSD is tasked to review statistical surveys submitted for clearance by government entities in the region.

In this connection, we would like to request you to formally designate **Dr. Remberto A. Patindol**, your Statistics professor and an old member of the TSSD, to continue his membership in the Subcommittee. Please allow him to attend meetings of the TSSD in Tacloban City and provide for his traveling expenses.

Thank you very much for your support to this endeavor.

Very truly yours,
