### **AUDIT OBSERVATION MEMORANDUM (AOM)**

Dr. Jose L. Bacusmo President Visayas State University VISCA, Baybay, Leyte

> Attention: Ms. Erlinda S. Esguerra OIC – Accounting Unit

We have audited the Cash in Bank, Foreign Currency account on both Savings and Time Deposit accounts and observed the following deficiencies/errors:

Interest income earned and Foreign Exchange gains and losses incurred during conversion to Philippine peso, for both Cash in Bank, Foreign Currency Savings and Time Deposit accounts, were all accounted as Other Payables-Dollar Account contrary to the provisions of Sec. 112 of PD 1445, the NGAS - Chart of Accounts and the Philippine Accounting Standard (PAS) 21, resulting in the understatement of both the income and Other Payables accounts.

Section 112 of PD 1445, provides the following:

"Each government agency shall record its financial transactions and operation in conformity with generally accepted accounting principles and in accordance with pertinent laws and regulations."

Also, the Philippine Accounting Standard (PAS) 21 provides the application of accounting for foreign currency transactions and determination of balances in foreign currency transactions, as follows:

"Foreign currency transactions at each subsequent balance sheet date should be reported using the closing rate (PAS 21.23). Exchange differences arising when monetary items are settled or when monetary items are translated at rates different from those at which they were translated when initially recognized or in previous financial statements are reported in profit or loss in the period. (PAS 21.28)

Furthermore, Sections 197 and 370 of the NGAS – Chart of Accounts provides for the proper accounts to be used to record interest income earned on bank deposits and gains and loss in the conversion of foreign currencies to the Philippine peso, as follows:

Section 197. Foreign Exchange (Forex) Gain. This account is used to record gains in the conversion of foreign currencies to Philippine Peso. In the case of revaluation of the outstanding foreign loans, it is the resulting difference when the prevailing exchange rate is lower than the exchange rate at the time of the transactions or last adjustment.

Section 370. Foreign Exchange (Forex) Loss. This account is used to record losses incurred in the conversion of foreign currencies to the Philippine peso, involving any of the following transactions:

Conversion of foreign currency deposits- It is the resulting difference when the prevailing exchange rate is lower than the exchange at the time of transactions or last adjustment.

Remittances or repayments of foreign loans by the National Government-It is the resulting difference when the prevailing exchange rate is higher than the rate of exchange at the time of receipt of loan proceeds or last adjustment.

Management has a US Dollar currency deposit with Land Bank of the Philippines, Baybay City Branch under Savings Account No. 3574-0001-30. It has also two (2) Time Deposits in US Dollar currency with the same bank, with terms of 91 days. These were evidenced by Certificates of Time Deposit with the following information:

| <u>Date</u>  | Account No.  | CTC No. | Interest rate |
|--------------|--------------|---------|---------------|
| May 12, 2010 | 3579-0001-62 | 826830  | 0.5625%       |
| May 31, 2010 | 3579-0001-70 | 826831  | 0.5000%       |

Examination of these accounts disclosed that interest income earned were credited to Other Payables-Dollar account and the net loss on the conversion of foreign currency to Philippine Peso as of December 31, 2011 was debited to the same account. This resulted in the understatement of interest income during the year and Other Payables account as of year-end.

We recommend that the University President should direct the Accountant to make the following journal entries:

To correct the erroneous entries previously made (Please see attached schedule for the breakdown of amount):

| Account Title            | Account<br>Code |   | <u>Debit</u> | Credit |          |  |
