RECOMMENDATION OF THE CANDIDATES FOR GRADUATION
WITH HONORS

I. Introduction:

It has been our practice to give honors to graduating students who obtained an overall general average within the range of 1.75 -- 1.00. In addition to the required general average a graduating student who is a candidate for honors should comply with other requirements like residence, no failing grades, normal load, and completion of the course within the period.

II. Requirements in Awarding of Honors:

a. General average requirement

Board Resolution No. 48, s. 1981 amending Section 361 of the ViSCA Code stated that students who complete their courses with the following averages, computed on the basis of credits, shall be graduated with honors with the appropriate words inscribed on their diplomas:

Cum Laude	1.75 -- 1.46
Magna Cum Laude	1.45 -- 1.21
Summa Cum Laude	1.20 -- 1.00

Computation of the final average of students who are candidates for graduation with honors shall be carried to the third decimal place and rounded up to the second decimal place.

Section 363 of the ViSCA code stated further that only credits earned while in residence shall be considered in the computation of final average of students who are candidates for graduation.

Dr. Samuel S. Go
Vice-President for Administration
and Officer In-Charge
Visayas State College of Agriculture
Baybay, Leyte

Dear Dr. Go:

This is to recommend the appointment of Dr. Kazuo Kawano, Cassava Breeder and Regional Representative of Centro Internacional de Agricultura Tropical (CIAT), as visiting professor of PRCRTC-VISCA from June 1, 1984 to May 31, 1988. If appointed, I would like to recommend further that he be entitled to free lodging during his periodic and short visits with us.

His appointment as visiting professor PRCRTC-VISCA is necessitated by the CIAT scholarship award which we are able to arrange for Mr. Eduardo Apilar, a research assistant of the Center. As stated on the second page of Dr. Fernando Fernandez's letter attached herewith, the two requirements for the scholarship award are (1) official admission to the UPLB Graduate School (already satisfied) and (2) official assurance that Apilar's thesis research will be conducted at PRCRTC with Dr. Kawano serving as co-adviser. The scholarship slot is a component of a UNDP funded project of CIAT, thus the need for involvement of a CIAT staff in the conduct of Apilar's thesis research which will be part also of said project.

I have made consultations with UPLB officials regarding the necessary arrangements. Dean Ramirez of UPLB Graduate School told me that based on existing guidelines (please see attached copy, p.2 no.5) Dr. Kawano may be designated as co-adviser if recommended by the Dept. of Agronomy of UPLB. So the first step is Dr. Kawano's official appointment as a staff member of PRCRTC-VISCA. If it is necessary to attach Dr. Kawano to a technical department in VISCA, I would like to let you know that Dr. F. A. Saladaga is accepting him.

Attached also is a copy of Dr. Kawano's biodata and the prepared appointment paper for your signature if this recommendation is acceptable to you.

Thank you.

Very truly yours,

(SGD.) E. N. BERNARDO

Doctor
EMILIANA BERNARDO
Root Crops Research and

Visayas College of
Agriculture
Leyte, Philippines

Dear Doctor Bernardo:

Thank you for sending the application form of Mr. Eduardo Apilar proposed for postgraduate studies, MS level, in cassava agronomy at the University of the Philippines, Los Baños.

I am pleased to inform you that since September 1984, we have indeed been looking into the possibility of supporting his study. Mr. Apilar informed Dr. Kawano, in a letter dated October 16, 1984, his interest to pursue his MS studies at the University of Philippines and indicated the month of June 1985 as a possible starting date. After Dr. Kawano's consultation with you on this matter, on November 9, he officially informed us of your interest to include Mr. Apilar in our MS studies component of a project, funded by UNDP.

At this time it is my pleasure to inform you that we met with Dr. James Cock and Dr. Kawano during his visit at CIAT in early December, to discuss Mr. Apilar acceptance to the MS Program; we decided to award him a scholarship to pursue graduate academic studies for a maximum of 2 years. An absolute condition of this award is that the recipient shall conduct his thesis research under the supervision of a CIAT staff member, either at CIAT or at another agreed location. In this case the PRORTC at Visca has been selected. The terms CIAT will support are as follows:

1. Air travel between Los Baños and Tacloban for Mr. Apilar and his wife.

/...

2. Tuition fees and fixed cost for books and supplies.
3. A one time relocation allowance of US\$600 to help take care of health insurance and relocation costs.
4. Monthly stipend of US\$200 as you suggested to Dr. Kawano.
5. Thesis research costs including essential air travel to and from PRCRTC where the work will be conducted.

By next March I expect to issue the official letter of appointment. However, in order to do so, it is necessary that we have a copy of the official acceptance of Mr. Apilar to the graduate program at the University of the Philippines, Los Baños, and a letter from UPLB authorities indicating their agreement to the conduct of Mr. Apilar's thesis research at the PRCRTC under the supervision of a professor from the University and the Co-supervision of Dr. Kazuo Kawano.

It must be clearly understood by Mr. Apilar that this award is being made through PRCRTC-Visca to him as a member of its faculty and not on a personal basis; the purpose being specifically to assist PRCRTC to increase its scientific manpower resource for research in cassava. Thus he is expected upon completion of his MS study to return to that center and devote himself to research in cassava. Likewise the PRCRTC assumes a responsibility to support then his future research on this crop.

Let me reiterate, our pleasure to collaborate with the PRCRTC to help strengthen its research capability in cassava.

Truly yours,

Sir:

I wish to request approval by the College Board of Trustees the continued designation of Mr. Dominador S. Ugsang as Chief, Security Officer of the College Security Unit with an honorarium of Five Hundred Pesos (P500.00) per month inspite of the scholarship grant (financial assistance) extended to him recently by the Scholarship Committee to take an M.S. Degree. Said request is premised upon the following reasons:

1. Mr. D. S. Ugsang is taking the M.S. degree inside the College campus which makes it easier for him to supervise the Security Unit without necessarily affecting his efficiency in the service and his studies as tested since November 1984 when his scholarship was approved up to the present.
2. The experience and expertise of Mr. D. S. Ugsang in the management of the College Security Unit are still needed by the College considering incidents of robbery, ambush and murder cases within this municipality, and in the neighboring towns of Baybay, Leyte.
3. His continued presence in the Security Unit of the College will continuously bolster the morale of the security guards because of his persuasive influence over his men, his tact and unique ability to inject the spirit of unity, industry and efficiency to the members of the unit.

Dr. Federico R. Flores
Principal, ERHS
ViSCA, Baybay, Leyte

Dear Dr. Flores:

In response to your letter informing the undersigned of the termination of your designation as Principal, ERHS, may I appeal that you continue performing your job as principal ~~until~~ President F. A. Bernardo returns to ViSCA or a new President shall have been appointed. I am sure you do agree with me that while we are undergoing this period of uncertainty it is not good for us to rock the boat. It can complicate the rather unpredictable situation we are presently experiencing.

In this connection, may I request that you continue performing your duties as principal of ERHS on hold over capacity until relieved by the incumbent President or the new President of ViSCA. I shall also recommend to the Board of Trustees the renewal of your designation as principal of ERHS. Perhaps this will also allow you to implement the innovations you plan to introduce in the ERHS.

Very truly yours,
