

6 April 2022

DR. EDGARDO E. TULIN
President

Dear Dr. Tulin,

Good day, Sir and I pray you are safe and well!

Respectfully submitting to you the initial plans and budgetary requirements (please see attached) of the college on our participation/contribution for the success of the 98th VSU Anniversary Celebration. The college greatly supports and highlights the need to vaccinate/revaccinate dogs within our community.

Rabies Vaccination:

Considering the number of people from both VSU and nearby barangays who may avail the said free vaccination for their dogs, the team recommends that this activity be conducted at the free space within the VSU Market area on May 4, 2022 from 9am to 4pm, to ensure safety of the people and animals involved. We expect to vaccinate about 200 or more dogs during this time. Makeshift tents/kiosks and table counters will be needed (% PPO). It is also suggested that security personnel be assigned during the activity to assist in crowd control and ensure safety of the area.

Castration/Spaying:

Given the invasive nature of the procedures, it is best to conduct the castration and spaying activities at the CVM Veterinary Teaching Hospital. A separate team will be involved to conduct said activity also on May 4, 2022.

Further details on how to conduct the said activities including associated seminars on responsible pet ownership will also be organized and advertised, accordingly on the college website and approved channels of the University for appropriate dissemination.

Thank you, Sir and I look forward to your favorable response.

Kindest regards,

SANTIAGO L. PEÑA, JR.

Dean

Approved:

EDGARDO E. TULIN
President
