Rationale

According to UNESCO, celebrating World Philosophy Day (WPD) "underlines the enduring value of philosophy for the development of human thought, for each culture and for each individual." In our university, since last year (and the second year of AB Philosophy program), we started to celebrate World Philosophy Day. This coming WPD will be the second annual celebration in our university. WPD awakens and reinforces the minds of our students and faculty by conducting lectures from our guest Filipino and International philosophers. It allows our selected students to present their philosophical papers and engage in a fruitful dialogue that exercises reasoned, free, and informed thinking. In our contemporary challenges, critical thinking and philosophical questions need to respond to our given situations.
