

TRAINING/WORKSHOP/ORIENTATION PROPOSAL

Title: Training-Seminar on Making Dishwashing Liquid

Participants: DoPAC Faculty and Staff, Bureau of Corrections (BuCor) Leyte Provincial Prison staffers, and Persons Deprived of Liberty (PDLs)

Date: August 7, 2023, 8:00 AM to 05:00 PM (Monday)

Venue: BuCor Leyte Provincial Prison, Abuyog Leyte

Rationale

It is one of the core values of Visayas State University to continually contribute to society's intellectual and economic progress by emphasizing the relevance and applicability of the university's scientific resources to the social well-being of its stakeholders. Accordingly, the Department of Pure and Applied Chemistry has been doing research and extension activities to deliver impactful outputs relating to this core function.

In line with this, the Department of Pure and Applied Chemistry (DoPAC), which has the expertise and is a knowledgeable resource on chemistry-related processes, has duly recognized the demand of the Persons Deprived of Liberty (PDLs) in providing technical assistance in the production of home care essentials for manpower development and sustainable livelihood opportunities. Hence, we propose the conduct of a 1-day training on the making of dishwashing liquid at the Bureau of Corrections (BuCor), Leyte Provincial Prison, Abuyog, Leyte.

This activity aims to (1) provide the participants with knowledge in harnessing their skills and capabilities in making dishwashing liquid; (2) empower the PDL community to generate livelihood opportunities to augment the resources provided by the government; (3) increase the savings potential and societal progress of BuCor; and (4) strengthen PDL community resiliency.

Objectives:

At the end of the training seminar, the participants are expected to:

1. make a dishwashing liquid;
2. generate livelihood opportunities on dishwashing liquid;
3. increase savings and societal progress of the government-funded agency (BuCor); and
4. strengthen PDL community resiliency.

Methodology/Strategy

The proposed 1-day face-to-face training seminar is designed for the participants to develop their skills in making dishwashing liquid. This activity also introduces the principles, chemistry, and importance of the preparation of home care essentials, particularly dishwashing liquid, in all walks of life.

The activity will start with an opening program, and a pre-test will be administered to determine the pre-existing knowledge of the participants before the intervention. The first speaker of the training will discuss the overview and the levels of expectations from the participants. It will be followed by a lecture on the "Principles, Science, and Importance of Dishwashing Liquid Preparation" by the second speaker. The actual demonstration and hands-on training on the making of the dishwashing liquid, which will be facilitated by the next two speakers, will commence right after an ice breaker.

The members of the Secretariat and Program/Training Committee will facilitate the conduct of the post-test and the training evaluation. Moreover, representatives from the participants will also be sharing his/her impressions on the training as part of the closing program. The activity will then be concluded by giving certificates to the speakers.

Resources Needed

- Plasticware and raw materials for dishwashing liquid production
- Office supplies
- Laptop
- DLP Projector with screen
- Tarpaulin
- Transportation

Expected Outcome:

1. Dishwashing Liquid

Estimated Budget:

Particulars	Cost in peso (Php)
Transportation (Gasoline)	3,000.00
Plasticware and raw materials for dishwashing liquid	20,000.00
Printing of Tarpaulin (2m x 3m)	1,000.00
TOTAL	24,000.00

Dear Hon. Tulin,

Greetings.

On behalf of the development skills of our persons deprived of liberty, the Behavior Modification Section of Leyte Regional Prison in Barangay Cagbolo Abuyog, Leyte would like to request from your office to conduct training/seminar on the *making of dishwashing liquid/liquid detergent, soap and shampoo* to the thirty-three (33) Therapeutic Community (TC) persons deprived of liberty clients on July 18, 2023, tentatively.

This activity is a great help to our PDL who had been in substance used disorder. It develops their livelihood skills which lead them to income generating while serving sentence inside prison and even when they will be released in prison near future.

Anticipating for your favorable response regarding this request.

Please contact this mobile number of the undersigned 09516683885.

Very truly yours,

CO2 NICK RYAN B. ESTOMATA

Chief, Behavior Modification Section

"REFORM BUCOR"
