

**Project Title:** UPGRADING the HORTICULTURE PLANT TISSUE CULTURE LABORATORY of the VISAYAS STATE UNIVERSITY

**Methodology:**

1. Improvement and upgrading of Department of Horticulture Plant Tissue Culture Laboratory

The present laboratory occupies a total of 154 square meters only. Sterilization area, inoculation room, incubation room and office room will be **extended at the back of the building** adjacent to the existing sterilization and media preparation room (See attached file). The previous sterilization and the media preparation room will also be **renovated** by adding new table top and cabinets for new equipment and instruments.

The needed materials will be properly requested and ordered following the procedure of procurement.
