**PROPOSAL TO CHANGE THE COURSE TITLE OF FOR 154 FROM PARKS  
AND WILDLIFE TO PRINCIPLES OF WILDLIFE MANAGEMENT**

From:

**FOR 154:    PARKS AND WILDLIFE**

Wildlife biology, habitat ecology, population dynamics and essential elements in wildlife management

Prerequisite: Zool 11 (General Zoology)

Credit:        3.0 units (3 hrs lec.)

To:

**FOR 154:    PRINCIPLES OF WILDLIFE MANAGEMENT**

Wildlife biology, habitat ecology, population dynamics and essential elements in wildlife management.

Prerequisite: Zool 11 (General Zoology)

Credit:        3.0 units (3 hrs lec.)

Rationale:

The renaming of the course title was due to proposed offering of a graduate course "Advance Wildlife Management," with this undergraduate course as pre-requisite. Moreover, natural park management is now commonly integrated as a topic on protected areas for subjects in wildlife management. The new course title is also more consistent with the course description.
